## Directors' Report

The Directors are pleased to present the annual report of Champion Breweries Plc ("the Company"), together with the independent auditor's report for the year ended 31 December 2023.

### 1. Legal Form and Principal Activity

The Company was incorporated in Nigeria as a limited liability company on 31 July 1974 and was later converted to a public limited liability company on 1 September 1992. The Company's principal activities continue to be brewing and packaging of Champion Lager Beer and Champ Malta as well as the provision of contract brewing services to Nigerian Breweries Plc, a related party within the Heineken group of the Netherlands. The immediate parent Company is The Raysun Nigeria Limited, a Company incorporated in Nigeria. The ultimate controlling entity of the entity is Heineken N.V.

### 2. Operating Results

A summary of the Company's operating results is shown below:

	2023	2022 Restated
	N'000	N'000
Revenue	12,704,274	12,288,893
Operating profit	603,966	2,271,277
Profit before tax	445,344	2,248,908
Income tax expense	(74,781)	(841,245)
Profit after income tax	370,563	1,407,663
Other comprehensive (loss), net of tax	(89,724)	(25,587)

### 3. Dividend

The Directors did not recommend any dividend during the year (2022: Nil).

### 4. Board of Directors

The Directors are responsible for oversight of the business, long-term strategy, objectives, and the Company's risks. The Directors are also responsible for evaluating and directing the implementation of the Company's controls and procedures including, in particular, maintaining a sound system of internal control to safeguard shareholders' investments and the Company's assets.

### 5. Directors and their Interests

The names of directors who held office during the year as well as their interest in the issued shares of the Company as recorded in the Register of Members and / or notified by the Directors in compliance with Section 301 of the Companies and Allied Matters Act, 2020 were as follows:

Directors	Position	Nationality	2023	2022
			Number of Ordinary Shares	
Mr Jacob Imo-Abasi**	Chairman	Nigerian	-	-

Newspaper & Subscription	125	-
ITF Vocational Training	218	-
	<b>7,286</b>	<b>16,309</b>

In accordance with Section 43(2) of the Companies and Allied Matters Act, 2020 ("CAMA"), the Company did not make any donation or give gifts to any political party, political association or for any political purpose during the year (2022: Nil).

### 9. Business Review and Future Development

The Company intends to continue the fulfilment of its objectives as indicated in its Memorandum and Articles of Association.

### 10. Corporate Governance

The Directors are committed to ensuring that best practices in corporate governance are adopted in all areas of the Company's business. The Company's policies on corporate governance are continually reviewed with focus on high ethical standards of transparency, integrity, accountability and honesty. The Board continues to formulate policies aimed at creating a well-positioned Company that is keen on constantly harmonizing the interests of various stakeholders to the business.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Directors' Report (Continued)

---

### 11. Code of Business Conduct

The Company has in place a Code of Business Conduct ('the Code') which provides guidance to all its users on the importance of high ethical values in sustainable business growth. The Code is subscribed to by all members of the Board of Directors and all employees of the Company.

### 12. Distribution of Company's Products

The Company's products are sold by distributors within the country. The list containing names of such distributors is available at the Commercial Department of the Company.

### 13. Employment and Employees

#### (a) Employment of physically challenged persons

It is the policy of the Company that there should be no discrimination in considering applications for employment, including those from physically challenged persons. All employees whether or not physically challenged are given equal opportunities to develop their experience and knowledge and to qualify for promotion in furtherance of their careers. There was no physically challenged person in employment as at reporting date (2022: Nil).

#### (b) Employee training and consultation

The Company is committed to keeping employees fully informed as far as possible regarding the Company's performance and seeking employees' views when necessary.

In-house and external training and development programs are organized for employees to meet the Company's growth strategy.

The Company continues to place premium on its Human Capital Development arising from the fact that this would ensure improved efficiency of the business and maintain strategic advantage over competition.

#### (c) Health, safety at work and welfare of employees

The Company maintains a clinic within the brewery which provide medical services to employees. Severe medical conditions are referred to designated hospitals whose services are retained by the Company through its health management organization. Such hospitals are located in areas within the convenient reach of employees.

The Company ensures that safety standards, procedures and regulations are in place in all locations of the Company through clear policies and employees are well informed about compliance with and development of safety regulations.

The Company has a canteen where employees are served good and nutritious meals on a daily basis.

### 14. Independent Auditors

Deloitte & Touche Nigeria was appointed by the Board at the 2022 annual general meeting as the Company's Independent Auditors. The SEC Code of Corporate Governance requires that Independent Auditors be retained for ten years; thus, Deloitte & Touche will continue in office as the Company's Independent Auditors for the next 8 years.

#### By Order of the Board

# 2023 Sustainability and Corporate Social Responsibility Report

At Champion Breweries Plc, Sustainability is not just a buzzword, it is a critical element of our business model and strategy.

As a Heineken company, our sustainability strategies are driven by our Brew A Better World agenda which is further driven under the three essential pillars listed below;

In 2023, we tasked ourselves on innovative approaches to reduce the impact of our business on the environment, with more focus on our production waste management, actively and proactively engaging in actions that demonstrate our care for people and planet, raising our voices on moderation in the consumption of alcohol, and promoting inclusion and diversity in the workplace.

## ENVIRONMENT

We made progress in our efforts towards our carbon footprints and waste management. We ended the year at 90% zero waste to landfill, representing a significant improvement from previous years. We completed the installation of a spent yeast autolyzing unit.

We invested in solar lights in the brewery to reduce our energy consumption and resultantly, reduce our carbon emissions.

Additionally, we reduced the number of plastic wastes arising from the company, by providing every employee with a reusable water flask. By this action, we are able to reduce the number of plastic bottle wastes in our environment by about 600 bottles per week.

# 2023 Sustainability and Corporate Social Responsibility Report

## SOCIAL

We have remained steadfast in our journey to achieve an inclusive, fair, and equitable company and society. On corporate social responsibility, we focused largely on education and career development in 2023. As a firm advocate of continuous learning, we enrolled 10 indigenes of Akwa Ibom state, selected across the three senatorial districts at the Nigerian Breweries Supply Chain Academy, Ibadan. They were enrolled into the Mechatronics and Brew-Tech programs that lasted for nine months. At the same time, we enrolled another five indigenes of our host communities into different skills acquisition programs under the Industrial Training Fund.

Also in the year, we inaugurated a PEER Educator Program in the company, selecting individual influencers across the various functions of the business to promote and influence healthy living and positive lifestyles.

We also rolled out aerobic programs, where people come together during the weekends for physical health and fitness exercises. By these, we are improving the lives of employees and everyone in Champion Breweries, which in turn, will enhance productivity and reduce the amount of hospital visits.

As a company that is committed to diversity and inclusion, we celebrated in grand style, “A Fusion of Our Cultural Diversity” as a theme for our 2023 Champion Breweries Cultural Day Celebration, hosting everyone in the company to the eye-catching displays of various cultural attires, foods, dances, histories, customs, and traditions.

**RESPONSIBLE**

In the year, we enhanced our advocacy on responsible consumption of alcohol. We continue to educate the public through our campaigns.

In partnership with the Federal Road Safety Corps, we actively championed the “Don’t Drink & Drive” campaign. The campaign was taken to active road users, educating them on the dangers of drink driving.

We remain committed to ensuring a sustainable environment and we have earmarked more measures to continuously curb our impact on the environment, eliminate carbon emissions from our operations, promote a more inclusive workforce, accelerate our efforts towards the social agenda and be bolder in our campaign on responsible drinking.

As a company whose average workforce age is between 30 – 40, we partnered with National Drug Law Enforcement Agency to campaign against Drug and Alcohol Abuse.

## Statement of Directors' Responsibilities

---

The Directors of Champion Breweries plc accept responsibility for the preparation of the financial statements that give a true and fair view of the financial position of the Company as at 31 December 2023, and the results of its operations, cash flows and changes in equity for the year then ended, in compliance with International Financial Reporting Standards ("IFRS") and in the manner required by the Companies and Allied Matters Act of Nigeria and the Financial Reporting Council of Nigeria Act, 2011 (now amended 2023).

In preparing the financial statements, the Directors are responsible for:

- Properly selecting and applying accounting policies;
- Presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Providing additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Company's financial position and financial performance

### Going Concern

The Directors have made an assessment of the Company's ability to continue as a going concern and have no reason to believe the Company will not remain as a going concern in the year ahead

The annual report and financial statements for the year ended 31 December 2023 were approved by the Board of Directors on 26 March 2024.

Signed on behalf of the Board of Directors By:

## Certification of financial statements

---

In accordance with section 405 of the Companies and Allied Act of Nigeria, the Chief Executive Officer and the Chief Financial Officer certify that the financial statements have been reviewed and based on our knowledge, the

(a) Audited financial statements do not contain any untrue statement of material fact or omit to state a material fact, which would make the statements misleading, in the light of the circumstances under which such statement was made, and

(b) Audited financial statements and all other financial information included in the statements fairly present, in all material respects, the financial condition and results of operation of the Company as of and for, the periods covered by the audited financial statements

We state that management and directors:

(a) Are responsible for establishing and maintaining internal controls and has designed such internal controls to ensure that material information relating to the Company and its subsidiaries is made known to the officer by other officers of the Company, particularly during the period in which the audited financial statement report is being prepared.

(b) Has evaluated the effectiveness of the Company's internal controls within 90 days prior to the date of its audited financial statements, and

(c) Certifies that the Company's internal controls are effective as of that date

We have disclosed:

(a) All significant deficiencies in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarise and report financial data, and has identified for the Company's auditors any material weaknesses in internal controls, and

(b) Whether or not, there is any fraud that involves management or other employees who have a significant role in the Company's internal control; and

(c) As indicated in the report, whether or not, there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses

The financial statements of the Company for the year ended 31 December 2023 were approved by the directors on 26 March 2024

## Audit Committee's Report

---

To the members of Champion Breweries Plc

In compliance with Section 404(7) of the Companies and Allied Matters Act (CAMA) 2020, we have reviewed financial statements of the Company for the year ended 31 December 2023 and report as follows:

- (a) The scope and planning of internal audit for the year ended 31 December 2023 are satisfactory. The internal audit programmes reinforce the Company's internal control system;
- (b) The scope and planning of statutory independent audit for the year ended 31 December 2023 are satisfactory;
- (c) Having reviewed the independent auditors' management letter on accounting procedures and internal controls, we are satisfied with management's responses thereon;
- (d) The accounting and reporting policies for the year ended 31 December 2023 are in accordance with International Financial Reporting Standards and applicable regulatory requirements.

The independent auditors confirmed that the scope of their work was not restricted in any way.

## Independent Auditor's Report

### To the Shareholders of Champion Breweries Plc

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of **Champion Breweries Plc** set out on pages 16 to 66, which comprise the statements of financial position as at 31 December 2023, the statements of profit or loss and other comprehensive income, statements of changes in equity, statements of cash flows for the year then ended and the notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial position of **Champion Breweries Plc** as at 31 December 2023, and its financial performance and statement of cash flows for the year then ended in accordance with International Financial Reporting Standards, the requirements of the Companies and Allied Matters Act 2020 and Financial Reporting Council (Amendment) Act 2023.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the requirements of the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA code) and other independence requirements applicable to performing audits of financial statements in Nigeria. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and other ethical requirements that are relevant to our audit of the Financial Statements in Nigeria.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matter

Key audit matter is the matter that, in our professional judgement, is of most significance in our audit of the financial statements of the current year. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Key Audit Matter	How the matter was addressed in the audit
<p><b>Liabilities for returnable packaging materials</b></p> <p>Indicated in Trade and other payables in Note 32.2 to the financial statement is Liabilities for Returnable Packaging Materials (“RPM”) of about N391,473,000 received as deposit from customers for breakable bottles and crates used to distribute product sold to them.</p> <p>The company provides RPM to its customers in which products are distributed for which in most instances the company collects deposits. The deposit is in turn refunded to the customer upon the return of these packaging materials to the company failing which the deposit is forfeited by the customer and released to the statement of profit and loss of the company.</p> <p>Judgement is required by the directors in assessing the carrying value of the outstanding customers' deposit liability for RPMs. Accordingly, for the purpose of our audit, we identified the assessment of outstanding customer deposit liability for RPMs as a key audit matter.</p> <p>The assumptions with the most significant impact in the assessment of outstanding liability for returnable packaging were:</p> <ul style="list-style-type: none"> <li>• The market loss rate which is subjective since it is based on the director's experience and expectations in addition to lack of readily available market data. The market loss rate is estimated for bottle crate sizes.</li> <li>• The cycle times of RPMs i.e., the time it takes for RPM to be returned to the entity, which is based on the Directors' estimates, is determined using samples which makes the calculation of the RPMs cycle times to be subjective.</li> </ul>	<p>In evaluating the value of the outstanding deposit liability, our procedures incorporated a test of the design and implementation of the company's controls relating to the estimation of the deposit liability and the following substantive procedures.</p> <ul style="list-style-type: none"> <li>• Assessed management's judgements applied in determining the relevant base month to perform annual reassessment of market loss and testing reasonability of data inputs (mainly market loss rates and cycle times) applied by management, in comparison to the company policy in respect of returnable packaging materials.</li> <li>• Confirmed reasonability of the base month by determining that the correct peak season was used.</li> <li>• The accuracy and completeness of the data input for market loss and cycle times which includes volume shipped, returns, and finished products were tested independently.</li> <li>• Recomputed market loss rate and the circulation time.</li> <li>• We assessed the reasonableness of the assumptions and ensured consistency in the judgement applied by management.</li> <li>• Reassessed the adequacy of closing balance of deposit liability reported at period end.</li> <li>• Assessed the adequacy of disclosures in the financial statements.</li> </ul> <p>Based on the procedures performed, management's conclusion on the adequacy and reasonability of the estimate and related disclosures were found to be adequate.</p>

### Emphasis of matter

We draw attention to Note 36 of the financial statements, which describes the effects of restatement of certain comparative figures in the financial statements. Our opinion is not qualified in respect of this matter.

### Other Information

The Directors are responsible for the other information. The other information comprises the Directors' Report, Corporate Social Responsibility Report, Statement of Directors' Responsibilities, Certification of the financial statements, Audit Committee's Report and other national disclosures (Statement of value added and Financial Summary) which we obtained prior to the date of this report, and the Annual Report, which is expected to be made available to us after that date. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of the Directors for the Financial Statements**

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, the requirements of the Companies and Allied Matters Act, the Financial Reporting Council of Nigeria Act and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. Also, we:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

In accordance with the Fifth Schedule of Companies and Allied Matters Act, we expressly state that:

- i. We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit.
- ii. The Company has kept proper books of account, so far as appears from our examination of those books.
- iii. The Company's financial position and its statement of profit or loss and other comprehensive income are in agreement with the books of account and returns.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 1 Corporate information

Champion Breweries Plc ('the company') was incorporated in Nigeria as a limited liability company on 31 July 1974 and was later converted to a public limited liability company on 1 September 1992. The address of the Company's registered office is Industrial Layout, Aka Uffot, Uyo, Akwa Ibom State, Nigeria.

#### 1.1 Principal activity

The Company is involved in the brewing and marketing of Champion Lager Beer and Champ Malta. The Company also provides contract brewing and packaging services to Nigerian Breweries Plc, a sister Company within the Heineken group of the Netherlands, the Ultimate parent Company of Champion Breweries Plc. The immediate parent Company is The Raysun Nigeria Limited, a subsidiary of the Heineken Group.

#### 1.2 Statement of compliance

These financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and in the manner required by the Companies and Allied Matters Act (CAMA), 2020 and the Financial Reporting Council of Nigeria Act, 2011 (now amended 2023). Details of the Company's accounting policies are included in Note 2. These financial statements were authorised for issue by the Board of Directors on 26 March 2024.

#### 1.3 Basis of preparation

The financial statements have been prepared in accordance with the going concern assumption under the historical cost concept except for the following items, which are measured on an alternative basis on each reporting date:

- defined benefit obligations - measured at present value of obligation
- inventory - lower of cost and net realisable value
- lease liabilities- measured at present value of future lease payments
- provisions - measured at present value of the obligations

#### 1.4 Functional and presentation currency

These financial statements are presented in Naira (₦), which is the Company's functional currency. All financial information presented in Naira has been rounded to the nearest thousand, except when otherwise indicated.

#### 1.5 Financial period

These financial statements cover the financial year ended 31 December 2023, with comparative amounts for the financial year ended 31 December 2022.

#### 1.6 Composition of financial statements

The financial statements of Champions Breweries Plc for the year ended 31 December 2023 comprise:

- Statement of profit or loss and other comprehensive income
- Statement of financial position
- Statement of changes in equity
- Statement of cash flows
- Notes to the financial statements

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2 Material accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

#### 2.1 Foreign currency transactions

Transactions in foreign currencies are translated to Naira at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated to Naira at the exchange rate at the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to Naira at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences arising on translation are recognized in profit or loss.

#### 2.2 Financial instruments

##### 2.2.1 Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

##### 2.2.2 Classification and subsequent measurement

All financial assets and liabilities are initially recognized at fair value, which is usually the transaction price including, where appropriate, transaction costs, with the exception of trade receivables without a significant financing component, which are measured at their transaction price, determined in accordance with the Company's accounting policies for revenue. Subsequently, measurement depends on the financial assets are measured as follows:

– *Financial assets measured at amortized cost (AC)*

Financial assets are held at amortized cost when they arise from contracts which give rise to contractual cash flows which are solely principal and interest and are held in a business model which mainly holds the assets to collect contractual cash flows.

These assets are measured at amortized cost using the effective interest method and are also subject to impairment losses. Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated on the amortized cost (i.e. gross carrying amount less loss allowance). Interest income is included in finance income. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

#### *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

#### Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2. Material accounting policies (continued)

#### 2.2.3 Derecognition

##### *Financial assets*

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

##### *Financial liabilities*

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

#### 2.2.4 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

### 2.3 Share capital and share premium

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects. When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded in the share premium reserve. All ordinary shares rank equally with regard to the Company's residual assets. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

### 2.4 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset until such time as the asset is ready for its intended use. The amount of borrowing costs eligible for capitalisation is determined as follows:

- Actual borrowing costs on funds specifically borrowed for the purpose of obtaining a qualifying asset less any temporary investment of those borrowings.
- Weighted average of the borrowing costs applicable to the entity on funds generally borrowed for the purpose of obtaining a qualifying asset. The borrowing costs capitalised do not exceed the total borrowing costs incurred.

The capitalisation of borrowing costs commences when:

- expenditures for the asset have occurred;
- borrowing costs have been incurred, and
- activities that are necessary to prepare the asset for its intended use or sale are in progress.

Capitalisation is suspended during extended periods in which active development is interrupted.

Capitalisation ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from borrowing costs eligible for capitalisation.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

---

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.5 Property, plant and equipment

#### 2.5.1 Recognition and measurement

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. If significant part of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

#### 2.5.2 Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company. The cost of routine maintenance of property, plant and equipment is recognised in profit or loss when incurred.

#### 2.5.3 Derecognition

The carrying amount of disposed items of property, plant and equipment are derecognised. Any gain or loss on sale of an item of property, plant and equipment is recognised in profit or loss.

#### 2.5.4 Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values on a straight-line basis over their estimated useful lives and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Land and capital work-in-progress are not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. The estimated useful lives of property plant and equipment for current and comparative periods are as shown below:

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the company, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Expenditure incurred subsequently for major services, additions to or replacements of parts of property, plant and equipment are capitalised if it is probable that future economic benefits associated with the expenditure will flow to the company and the cost can be measured reliably. Day to day servicing costs are included in profit or loss in the year in which they are incurred.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the company. Leased assets are depreciated in a consistent manner over the shorter of their expected useful lives and the lease term. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

---

Item	Depreciation method	Average useful life
Buildings	Straight line	40 to 50 years
Plant and machinery	Straight line	5 to 30 years
Furniture and fittings	Straight line	3 to 5 years
Motor vehicles:		
- Cars and trucks	Straight line	5 years
- Forklifts	Straight line	5 years
Returnable packaging materials:		
- Bottles	Straight line	5 years
- Crates	Straight line	8 years

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.6 Inventories

Inventories are assets held for sale in the ordinary course of business, in the process of production for such sale, or in the form of materials or supplies to be consumed in the production process. Inventories are measured at the lower of cost and net realisable value. The cost of inventory includes expenditure incurred in acquiring the inventory, production or conversion costs incurred in bringing them to their existing location and condition. Cost incurred on each product is based on:

Raw and packaging materials	–	weighted average cost including transportation costs
Finished products and Products-in-process	–	weighted average cost of direct materials and labour plus a reasonable proportion of manufacturing overheads based on normal levels of activity
Engineering spares	–	purchase cost on a weighted average cost basis, including transportation and clearing costs

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs to completion and selling expenses.

Inventories are regularly assessed for obsolescence, or whether their carrying amount exceeds their net realizable value (sales price less costs to sell) and appropriate provisions are recognized. Inventory values are adjusted for obsolete, slow-moving or defective items.

After write-down has been made, net realizable value should be re-assessed in each subsequent period. If the circumstances that caused the write-down cease to exist, such that all or part of the write-down is no longer needed, it should be reversed to that extent. Similarly, if there is a clear evidence that the net realizable value has increased because of changed economic circumstances, the write-down is reversed. The new carrying value of the inventory would then be the lower of cost and the revised net realizable value.

### 2.7 Returnable Packaging Materials and Deposit Liability

Returnable packaging materials (RPM) may be classified as property, plant and equipment or inventory. The classification mainly depends on whether ownership is transferred and if the company has the legal or constructive obligation to buy back the materials. The assumptions to classify as property plant and equipment is that the Company have it included on our customer contracts, the ownership of the RPM is not transferred to the customer and the Company has a legal or constructive obligation to buy back, hence concluding that the RPM is treated as property plant and equipment. The recognition of deposit liabilities for RPM items occurs when the company becomes obligated, either contractually or constructively, to refund cash to the customer or issue a credit note upon the return of the RPM item. The initial measurement of the deposit liability is based on the nominal amount expected to be refunded to the customer upon return of the RPM item, without any discounting applied. Subsequent measurement of the RPM deposit liability involves accounting for market loss using reliable Supply Chain measurements spanning at least 12 months. This ensures a robust estimation of market loss, with adjustments made to account for seasonality.

Once sufficient reliable data is available and the market loss percentage is deemed reasonable, the deposit liability is released monthly to reflect the estimated market loss based on the monthly sales volume. Additionally, the company assess the reasonableness of the deposit liability at least annually, particularly during peak seasons when circulation time is measured. This assessment is conducted in collaboration with the Supply Chain department to ensure reliability. Depending on local circumstances, a threshold may be applied before the release is recorded to account for estimation uncertainty.

### 2.8 Impairment

#### 2.8.1 Non-derivative financial assets

The Company recognises loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortised cost. The Company measures loss allowances at an amount equal to lifetime ECLs. The ECLs for trade and other receivables are estimated using a provision matrix based on the Company's historical credit loss experience adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both current as well as the forecast direction of conditions at the reporting date.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default.

The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. The exposure at default is the gross carrying amount of the non derivative financial asset at the reporting date. Non derivative financial assets are then grouped in such a manner that they share similar credit risk characteristics.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.8 Impairment (continued)

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 180 days past due.

#### *Measurement of ECLs*

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

#### *Credit-impaired financial assets*

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 180 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

#### *Write off*

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

#### **Presentation of allowance for ECL in the statement of financial position**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

An impairment loss is recognized if the carrying amount of a financial asset exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

#### **2.8.2 Non-financial assets**

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of the other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.8 Impairment (continued)

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss and are allocated to reduce the carrying amounts of assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### 2.9 Borrowings and loans

#### Recognition and measurement

Borrowings and loans are recognised when the company becomes a party to the contractual provisions of the loan. The loans are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Interest expense, calculated on the effective interest method, is included in profit or loss in finance costs (Note 10.)

Borrowings expose the Group to liquidity risk and interest rate risk. Refer to Note 34 for details of risk exposure and management thereof.

### 2.10 Employee benefits

#### 2.10.1 Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### 2.10.2 Defined contribution plans

In line with the provisions of the Pension Reform Act 2014, the Company has instituted a defined contribution pension scheme for its permanent staff. Staff contributions to the scheme are funded through payroll deductions while the Company's contribution is recognised in profit or loss as personnel expense in the periods during which services are rendered by employees. Under this scheme, employees contribute 8% of their basic salary, transport and housing allowances to a fund on a monthly basis. The Company's contribution is 10% of each employee's basic salary, transport and housing allowances to the fund.

Obligations for contributions to defined contribution plans are recognised as personnel expense in profit or loss in the periods during which related services are rendered by employees.

#### 2.10.3 Defined benefit plans

The Company's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods and discounting that amount.

The calculation of defined benefit obligations is performed annually by Alexander Forbes Consulting Actuaries Nigeria Limited using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements. Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in other comprehensive income.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.10 Employee benefits (continued)

The Company determines the net interest expense (income) on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### 2.10.4 Other long-term employee benefits (Long service awards)

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise. The calculation of defined benefit obligations is performed annually by Alexander Forbes Consulting Actuaries Nigeria Limited using the projected unit credit method.

### 2.11 Provisions and contingent liabilities

#### Provision

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

In determining the amount of provisions to be recognised, the Company takes into account the impact of exposures and whether additional fines and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing provisions; such changes to provisions will impact profit or loss in the period that such determination is made.

#### Contingent liabilities

Contingent liabilities are only disclosed and not recognised as liabilities in the statement of financial position. If the likelihood of an outflow of resources is remote, the possible obligations is neither a provision nor a contingent liability and no disclosure is made.

- the company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement shall be recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset. The amount recognised for the reimbursement shall not exceed the amount of the provision.

Provisions are not recognised for future operating losses.

If an entity has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.11 Provisions and contingent liabilities (continued)

After their initial recognition contingent liabilities recognised in business combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 39.

### 2.12 Revenue

The Company principally generates revenue from the sale and delivery of its product. Revenue is measured based on the consideration specified in a contract with a customer. The Company recognises revenue when it transfers control over a good or service to a customer.

#### *Nature and timing of satisfaction of performance obligation*

Customer gain control of goods when the goods have been delivered and accepted at their premises or when the goods are picked up by the customer. Invoices are generated at that point in time. Invoices are usually payable within 30 days. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

#### **Product Sales**

The sale and delivery of products are identified as one performance obligation and are not separately identifiable. Revenue from product sales is recognised at a point in time when the goods are delivered and have been accepted by customers at their premises or when the goods are picked up by the customer.

For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data. In these circumstances, a refund liability and a right to recover returned goods asset are recognised.

The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The Company reviews its estimate of expected returns at each reporting date and updates the amounts of the asset and liability accordingly.

### 2.13 Operating profit

Operating profit is the result generated from the continuing principal revenue-producing activities of the Company as well as other income and expenses related to operating activities. Operating profit excludes net finance costs or income taxes.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.14 Tax

#### Current tax assets and liabilities

Income tax expense comprises current tax (Company Income Tax, Tertiary Education Tax and Nigeria Police Trust Fund levy) and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income. The Company had determined that interest and penalties relating to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore are accounted for under IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

#### Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year, and any adjustment to tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date and is assessed as follows:

- Company income tax is computed on taxable profits
- Tertiary education tax is computed on assessable profits
- Nigeria Police Trust Fund levy is computed on net profit (i.e. profit after deducting all expenses and taxes from revenue earned by the company during the year).

The Company offsets the tax assets arising from withholding tax (WHT) credits and current tax liabilities if, and only if, the entity has a legally enforceable right to set off the recognised amounts, and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. The tax asset is reviewed at each reporting date and written down to the extent that it is no longer probable that future economic benefit would be realised.

#### Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax assets are recognised for unutilised tax losses, unutilised tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be utilised.

Deferred tax assets and liabilities are offset if, and only if the Company:

- i. has a legally enforceable right to set off current tax assets against current tax liabilities; and
- ii. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such determination is made.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.14 Tax (continued)

#### Minimum tax

The Company is subject to the Finance Act of 2021 which amended the Company Income Tax Act (CITA). Total amount of tax payable under the Finance Act is determined based on the higher of two components; Company Income Tax (based on taxable income (or loss) for the year); and Minimum tax (determined based on 0.5% of qualifying Company's turnover less franked investment income). Taxes based on taxable profit for the period are treated as income tax in line with IAS 12.

Where the minimum tax charge is higher than the Company Income Tax (CIT), a hybrid tax situation exists. In this situation, the CIT is recognized in the income tax expense line in the profit or loss and the excess amount is presented above the income tax line as Minimum tax.

### 2.15 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for the effects of all dilutive potential ordinary shares.

### 2.16 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease.

A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Company as lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term as this is the shorter of lease term and the estimated useful life of the assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in the statement of financial position.

#### Short-term leases and leases of low-value assets below N5m

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases, including its property rental for key management personnel. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Company is not a lessor in any lease arrangement.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 2.16 Leases (continued)

#### 2.17 Finance income and finance costs

Finance income comprises interest income on funds invested. Interest income is recognized in profit or loss on a time proportion basis using the effective interest method.

Finance costs comprise interest expense on lease liabilities, unwinding of the discount on provisions, interest expense on defined benefit obligation, interest expense on factoring of trade receivables recognized on financial assets, except finance costs that are directly attributable to the acquisition, construction or production of a qualifying asset which are capitalized as part of the related assets, are recognized in income statement using the effective interest method.

#### 2.18 Statement of cash flows

The statement of cash flows is prepared using the indirect method. Changes in items on the statement of financial position that have not resulted in actual cash flows are eliminated. Interest received is included in investing activities.

#### 2.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for monitoring, allocating resources and assessing performance of the operating segments and has been identified as the Managing Director.

### 3. Significant judgements and sources of estimation uncertainty

The preparation of the financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

#### 3.1 Critical judgements in applying accounting policies

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

##### Capitalisation of borrowing cost

The company capitalizes borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets. Capitalization of the actual borrowing costs relating to newly installed Marsh filter equipment is included in PPE addition. Management deems capitalization appropriate to the tune of incurred amount as at the date of capitalization. Borrowing costs incurred post capitalization date are expensed in the income statement.

##### Leases

Judgement is required to determine the lease term and the incremental borrowing rate. The assessment of whether the company is reasonably certain to exercise extension options or not to make use of termination options impacts the lease term, which as a result could affect the amount of lease liabilities recognised. The assumptions used in the determination of the incremental borrowing rate could impact the rate used in discounting future payments, which as a result could have an impact on the amount of lease liabilities recognised.

The Company applies the following practical expedients for the recognition of leases:

- The short-term lease exemption, meaning that leases with a duration of less than a year are expensed in the income statement on a straight-line basis.
- The low value lease exemption, meaning that leased assets with an individual value of N5m or less if bought new, are expensed in the income statement on a straight-line basis.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 3. Significant judgements and sources of estimation uncertainty (continued)

#### 3.2 Key sources of estimation uncertainty

Information about assumptions and estimation uncertainties at 31 December 2023 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

##### **Allowance for slow moving, damaged and obsolete inventory**

Management assesses whether inventory is impaired by comparing its cost to its estimated net realisable value. Where an impairment is necessary, inventory items are written down to net realisable value. The write down is included in cost of sales.

##### **Retirement benefit plan**

The defined benefit obligation is determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to high quality corporate bond yields, if the return on plan asset is below this rate, it will create a plan deficit. Currently the scheme does not have a plan asset.

The Company also sponsors a long service award plan for all its confirmed employees. Under the plan, the employees are entitled to cash award, service plaque as well as other non cash benefit on attainment of 5 years of service. The current number of employees covered under this plan is 150 (2022: 140) and there are no segregated fund assets as benefit payment are met on a pay-as-you go basis.

##### **Calculation of loss allowance**

Management has credit policies in place and the exposure to credit risk is monitored on an ongoing basis. Under the credit policies all customers requiring credit over a certain amount are reviewed and new customers analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's credit assessment process includes specified cash deposits by new customers. Credit limits are established for qualifying customers and these limits are reviewed regularly. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company only on a prepayment basis.

The Credit Committee reviews each customer's credit limit in line with the customers' performance in the preceding quarter and perceived risk factor assigned to the customer.

When measuring ECL the Company uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

##### **Estimated useful lives of property, plant and equipment**

Management reviews the useful lives of tangible and intangible assets on an annual basis. Estimates are based on historical experience and expectations of the manner in which assets are to be used, together with expected proceeds likely to be realized when assets are disposed of at the end of their useful lives. Changes in estimated useful lives are accounted for on a prospective basis.

##### **Liability for returnable packaging material**

The Company sells its products in returnable bottles and crates for which it collects a fixed amount as deposit from customers. The Company has an obligation to refund this deposit when the customers return the crates and bottles. In the current year, the management assessed the deposits to determine the estimates of breakages and other losses of returnable packaging materials in trade using an average market loss rate. The market loss rate of returnable packaging material is calculated using the historical loss rate and a reliable estimate of customer behaviour with sufficient data for a reliable estimation. Based on this estimate, an amount is released to the income statement to account for the losses and breakages. A yearly assessment of the RPM deposit liability account is also carried out and Deposit liability amount adjusted to the assessed amount of Goods net movement.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 3. Significant judgements and sources of estimation uncertainty (continued)

#### Provision

The amount recognised as provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cashflows estimated to settle the present obligation, its carrying amount is the present value of those cashflows (when the effect of the time value of money is material). When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that the reimbursement will be received, and the amount of the receivable can be measured reliably.

### 4. New Standards and Interpretations

#### 4.1 Standards and interpretations effective and adopted in the current year

In the current year, the company has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

##### **Deferred tax related to assets and liabilities arising from a single transaction - Amendments to IAS 12**

The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting profit nor taxable profit.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The company has adopted the amendment for the first time in the 2023 annual report and financial statements.

The impact of the amendment is not material.

##### **Disclosure of accounting policies: Amendments to IAS 1 and IFRS Practice Statement 2.**

The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

The IASB has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The company has adopted the amendment for the first time in the 2023 annual report and financial statements.

The impact of the amendment is not material.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 4. New Standards and Interpretations (continued)

#### Definition of accounting estimates: Amendments to IAS 8

The company has adopted the amendments to IAS 8 for the first time in the current year. The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. The definition of a change in accounting estimates was deleted.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The company has adopted the amendment for the first time in the 2023 annual report and financial statements.

The impact of the amendment is not material.

#### 4.2 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company’s accounting periods beginning on or after 1 January 2024 or later periods:

##### Lease liability in a sale and leaseback

The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments require the seller-lessee to determine ‘lease payments’ or ‘revised lease payments’ such that the seller-lessee does not recognise a gain or loss that relates to the right of use retained by the seller-lessee, after the commencement date.

The amendments do not affect the gain or loss recognised by the seller-lessee relating to the partial or full termination of a lease. Without these new requirements, a seller-lessee may have recognised a gain on the right of use it retains solely because of a remeasurement of the lease liability (for example, following a lease modification or change in the lease term) applying the general requirements in IFRS 16. This could have been particularly the case in a leaseback that includes variable lease payments that do not depend on an index or rate.

As part of the amendments, the IASB amended an Illustrative Example in IFRS 16 and added a new example to illustrate the subsequent measurement of a right-of-use asset and lease liability in a sale and leaseback transaction with variable lease payments that do not depend on an index or rate. The illustrative examples also clarify that the liability, that arises from a sale and leaseback transaction that qualifies as a sale applying IFRS 15, is a lease liability.

A seller-lessee applies the amendments retrospectively in accordance with IAS 8 to sale and leaseback transactions entered into after the date of initial application, which is defined as the beginning of the annual reporting period in which the entity first applied IFRS 16.

The effective date of the amendment is for years beginning on or after 1 January 2024. Earlier application is permitted. If a seller-lessee applies the amendments for an earlier period, it is required to disclose that fact.

The company expects to adopt the amendment for the first time in the 2024 annual report and financial statements.

It is unlikely that the amendment will have a material impact on the company's annual report and financial statements.

##### Amendments to IAS 1 Presentation of Financial Statements—Classification of Liabilities as Current or Non-current

The amendments to IAS 1 published in January 2020 affect only the presentation of liabilities as current or noncurrent in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of ‘settlement’ to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 4. New Standards and Interpretations (continued)

The amendments are applied retrospectively for annual periods beginning on or after 1 January 2024, with early application permitted. The IASB has aligned the effective date with the 2022 amendments to IAS 1. If an entity applies the 2020 amendments for an earlier period, it is also required to apply the 2022 amendments early.

It is unlikely that the amendment will have a material impact on the company's annual report and financial statements.

#### Amendments to IAS 1 Presentation of Financial Statements—Non-current Liabilities with Covenants

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or noncurrent). Such covenants affect whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting date (e.g. a covenant based on the entity's financial position at the reporting date that is assessed for compliance only after the reporting date).

The IASB also specifies that the right to defer settlement of a liability for at least twelve months after the reporting date is not affected if an entity only has to comply with a covenant after the reporting period. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants (including the nature of the covenants and when the entity is required to comply with them), the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

The amendments are applied retrospectively for annual reporting periods beginning on or after 1 January 2024. Earlier application of the amendments is permitted. If an entity applies the amendments for an earlier period, it is also required to apply the 2020 amendments early.

It is unlikely that the amendment will have a material impact on the company's annual report and financial statements.

#### Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures—Supplier Finance Arrangements

The amendments add a disclosure objective to IAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows. In addition, IFRS 7 was amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity's exposure to concentration of liquidity risk.

The term 'supplier finance arrangements' is not defined. Instead, the amendments describe the characteristics of an arrangement for which an entity would be required to provide the information.

To meet the disclosure objective, an entity will be required to disclose in aggregate for its supplier finance arrangements:

- The terms and conditions of the arrangements
- The carrying amount, and associated line items presented in the entity's statement of financial position, of the liabilities that are part of the arrangements
- The carrying amount, and associated line items for which the suppliers have already received payment from the finance providers
- Ranges of payment due dates for both those financial liabilities that are part of a supplier finance arrangement and comparable trade payables that are not part of a supplier finance arrangement
- Liquidity risk information

The amendments, which contain specific transition reliefs for the first annual reporting period in which an entity applies the amendments, are applicable for annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted.

It is unlikely that the amendment will have a material impact on the company's annual report and financial statements.

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

	Notes(s)	2023 N '000	2022 N '000
<b>19. Trade and other receivables</b>			
Trade receivables		407,069	79,141
Less: Impairment loss allowance on trade receivables	19.3	(54,637)	(34,268)
Trade receivables at amortised cost		352,432	44,873
Other receivables	19.1	28,905	28,323
Amounts due from related parties	33	2,729	-
<b>Total trade and other receivables</b>		<b>384,066</b>	<b>73,196</b>

### 19.1 Other receivables

Staff car grant		6,202	823
Withholding tax on fixed deposit placement		22,703	27,500
		<b>28,905</b>	<b>28,323</b>

### 19.2 Exposure to credit risk for trade receivables

Trade receivables inherently expose the company to credit risk, being the risk that the company will incur financial loss if customers fail to make payments as they fall due. Trade receivables are non-interest bearing and are generally on terms of 0 - 30 days.

The company's historical credit loss experience does not show significantly different loss patterns for different customer segments. The provision for credit losses is therefore based on past due status without disaggregating into further risk profiles. The loss allowance provision is determined as follows:

	2023	2023	2022	2022
<b>Expected credit loss rate:</b>	Estimated gross carrying amount at default	Loss allowance (Lifetime expected credit loss)	Estimated gross carrying amount at default	Loss allowance (Lifetime expected credit loss)
Not past due: 0.57% (2022: 0.07%)	341,724	1,941	27,920	20
Less than 30 days past due: 2.02% (2022: 0.14%)	7,624	154	14,345	20
31 - 60 days past due: 26.82% (2022: 25.3%)	235	63	729	184
61 - 90 days past due: 51.25% (2022: 50.09%)	178	92	478	239
91 - 180 days past due: 75.63% (2022: 75.05%)	15,105	11,411	3,625	2,721
More than 180 days past due: 97.09% (2022: 97.01%)	42,203	40,976	32,044	31,084
<b>Total</b>	<b>407,069</b>	<b>54,637</b>	<b>79,141</b>	<b>34,268</b>

### 19.3 Movement in loss allowances on trade receivables

The following table shows the movement in the loss allowance (lifetime expected credit losses) for trade receivables:

	2023 N'000	2022 N'000
Opening balance	(34,268)	(154,597)
Amount written off	-	126,116
Changes in loss allowance	(20,369)	(5,787)
<b>Closing balance</b>	<b>(54,637)</b>	<b>(34,268)</b>

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 24. Retirement benefit obligation

#### Defined benefit plan

The Company sponsors a retirement benefit obligation (defined benefit plan) and Long service award for its qualifying employees. The Company operates an unfunded defined benefit scheme for its employees which is remeasured using the Projected Unit Credit method by an Actuarial Consultant, Wayne van Jaarsveld FRC/2021/002/00000024507 of Alexander Forbes Consulting Actuaries Nigeria: FRC/2012/0000000000504.

Gratuity benefit	Years of service
<b>Senior management staff</b>	
7 weeks basic salary for each completed year of service	5<10 years
7 weeks of total emolument (Basic salary + Transport allowance + Housing allowance + Meal allowance) for each completed year of service.	10 years and above
<b>Junior staff</b>	
5 weeks basic salary for each completed year of service	5<10 years
7 weeks of total emolument (Basic salary + Transport allowance + Housing allowance + Meal allowance) for each completed year of service.	10 years and above

The plans typically expose the company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to high quality corporate bond yields; if the return on plan asset is below this rate, it will create a plan deficit. Currently the scheme does not have plan asset.
Interest risk	A decrease in the bond interest rate will increase the plan liability.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The principal assumptions used in determining pension obligations for the Company's plans are shown below:

	2023	2022
Discount rate (p.a)	15.00 %	14.40 %
Salary increase rate	12.00 %	7.50 %

The Movement in present value of defined benefit obligation are set out below:

	Note(s)	2023 ₦ '000	2022 ₦ '000
Opening defined benefit obligation		448,260	327,633
Current service cost	12	41,981	36,878
Past service cost	12	-	64,734
Interest cost	10	66,240	52,345
<b>Included in other comprehensive income</b>			
Remeasurements arising from changes in economic assumptions		107,712	(21,200)
Remeasurements arising from demographic assumptions		26,101	59,105
Experience adjustments		-	-
Payments		(60,486)	(71,235)
		<b>629,808</b>	<b>448,260</b>

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 24. Retirement benefit obligation (continued)

#### 24.1 Amounts recognised in profit or loss

	Note(s)	2023 ₦ '000	2022 ₦ '000
Current service costs		42,036	36,878
Past service costs		-	64,734
Interest expense	10	66,240	52,345
		<b>108,276</b>	<b>153,957</b>

#### 24.2 Amounts recognised in other comprehensive income:

##### Actuarial (gain)/loss arising from:

Changes in financial assumptions		107,712	(21,200)
Changes in experience adjustments		26,101	59,105
		133,813	37,905
Related tax	16	(44,090)	(12,318)
<b>Remeasurement of the net defined benefit liability</b>		<b>89,723</b>	<b>25,587</b>

#### 24.3 Sensitivity analysis of the defined benefit obligation

Base		629,808	448,205
<b>Discount rate:</b>			
1% increase		(28,337)	(17,574)
1% decrease		31,220	19,185
<b>Future salary increases:</b>			
1% increase		33,181	21,484
1% decrease		(30,540)	(19,926)
<b>Mortality</b>			
Increase by 1 year		(12)	93
Decrease by 1 year		11	(83)

Sensitivity to each actuarial assumption was determined while other assumptions were held constant. There has not been a change from the sensitivity approach adopted in prior years. Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

#### 24.4 Pension liabilities

Balance on the pension payable account represents the amount due to the Pension Fund Administrators which was yet to be remitted as at the year end. This is presented under trade and other payables (Note 32(a)). The movement on this account during the year was as follows:

	2023 ₦'000	2022 ₦'000
1 January	-	13,363
Charge for the year & Staff deduction	126,214	105,507
Remittances	(126,214)	(118,870)
<b>31 December (included in trade and other payables)</b>	<b>-</b>	<b>-</b>

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 25. Long service awards

The Company sponsors a long service award plan for all confirmed employees. Under the plan, the employees are entitled to the following based on the attainment of milestone years of service:

#### Long service awards

10 crates of Company's products and plaque	5 years
1-month basic salary, N150,000 in lieu of gift item, plaque and 15 crates of Company's products	10 years
1.5 months basic salary, N200,000 in lieu of gift item, plaque and 20 crates of Company's products	15 years
2 months basic salary, N250,000 in lieu of gift item, plaque and 25 crates of Company's products	20 years

The most recent actuarial valuations of the long service award were carried out at 31 December 2023 by an Actuarial Consultant, Wayne van Jaarsveld FRC/2021/002/00000024507 of Alexander Forbes Consulting Actuaries Nigeria: FRC/2012/0000000000504. The present value of the defined benefit liability, and the related current service cost and past service cost, were measured using the projected unit credit method.

The principal assumptions used in determining pension obligations for the Company's plans are shown below: The assumptions used are financial and demographic assumptions.

	2023	2022
<b>Financial assumptions</b>		
Discount rate (p.a)	15.00 %	14.40 %
Salary increase rate	12.00 %	7.50 %
Benefit increase rate	7.50 %	7.50 %

Demographic assumptions

Mortality in service

The rates of mortality assumed for employees are the rates published in the A1967/70 Ultimate tables, published jointly by the Institute and Faculty of Actuaries in the UK.

Sample age	Number of deaths in year of age out of 10,000 lives
25	7
30	7
35	9
40	14
45	26
50	48
55	84
60	144

Withdrawal from service

Age band	Rate
18 - 24	15%
25 - 29	15%
30 - 34	10%
35 - 39	7%
40 - 44	5%
45 - 49	4%
50 - 54	3.5%
55 - 59	2%
60 and above	0%

The same mortality assumption was used in the 2022 valuation .

7,829,496 ordinary shares of 50k each	3,914,748	3,914,748
Share premium	519,100	519,100
	<b>4,433,848</b>	<b>4,433,848</b>

### 27. Other reserve

On 1 January 2011 (date of transition to IFRS), the Company applied optional exemptions of deemed cost for measurement of property, plant and equipment. Other reserve was created to recognise differences between the carrying amounts and fair value of property, plant and equipment on the date of transition to IFRS.

### 28. Provisions

Provisions represent the Directors' best estimate of the amount of resources embodying economic benefits that may be required to settle regulatory-related exposures.

Opening balance	490,047	367,766
Additions	18,826	122,281
Closing balance	<b>508,873</b>	<b>490,047</b>

Management expects the cash outflows relating to the provisions to occur within the next financial year based on expected timing of settlement of the related matters. Accordingly, the provision has not been discounted. Provision during the year have been recognised in respective expense heads during the year

### 29. Borrowings

Contract liabilities relates to the company's obligation to transfer goods to a customer for which the entity has received consideration.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 31. Lease Liability

Lease liabilities relate to the present value of future lease payment on the Company's rented gas generator and properties.

The Company leases a Gas generator equipment and apartment (building) for its key management personnel for the purpose of accommodation.

#### Gas generator equipment

The management recognised right-of-use assets and lease liabilities with respect to a gas generator after assessing that the Company will continue to demand for power from the lessor of the gas generator for the foreseeable future.

The movement in the lease liability during the year is as follows:

	2023 N'000	2022 N'000
Balance as at 1 January	524,099	539,789
Addition	315,953	23,786
Accrued lease interest	39,504	59,796
Payment of lease liabilities	(85,399)	(33,741)
Payment of lease interest	(38,143)	(58,531)
Derecognised lease *	(510,868)	(7,000)
<b>Balance as at 31 December</b>	<b>245,146</b>	<b>524,099</b>

\* During the year, the Company terminated its lease agreement for certain power generating equipment (the "old lease") and entered into a new lease agreement (the "new lease") for new power generating equipment. The termination of the old lease resulted in the derecognition of lease liabilities associated with the old lease.

#### Maturity analysis:

Less than 1 year	142,401	79,023
Between 1 - 2 years	128,831	92,489
Between 2 - 5 years	7,765	237,067
Above 5 years	-	521,517
Less unearned interest	(33,851)	(405,997)
	<b>245,146</b>	<b>524,099</b>

#### Analysed as:

Current	118,084	79,023
Non-current	127,062	445,076
<b>Balance as at 31 December</b>	<b>245,146</b>	<b>524,099</b>

Management elected not to recognise right-of-use assets and lease liabilities for leases of one year or below for which it is not reasonably certain the tenor will be extended. These have been classified as prepayments in the statement of financial position.

#### 31.1 Amounts recognised in profit or loss

Interest on lease liabilities	39,504	59,796
Expenses relating to short-term leases	556	2,650
Depreciation of right of use asset	105,792	46,211
	<b>145,852</b>	<b>108,657</b>

#### 31.2 Extension options

The generator and building leases contain extension options exercisable by the Company at the end of the non-cancellable contract periods. Where practicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at the lease commencement date whether it is reasonably certain to exercise the extension options. The Company reassesses whether it is reasonably certain to exercise the option if there is a significant event or significant change in circumstances within its control.

Release of liability		(337,156)	(303,753)
<b>Closing balance</b>		<b>391,473</b>	<b>335,351</b>

The Company has the legal or constructive obligation to take back the materials from the market. A deposit value is generally charged upon sale of the finished product, which is reimbursed when the empty returnable packaging material is returned. The company apply judgement to assess the carrying value of the outstanding customer's deposit liability. The most significant assumptions are on market loss rate, which is estimated based on measurements on a monthly basis, market possession and circulation times of the returnable packaging material. The measurements and estimates are monitored on a monthly basis and the deposit liability assessment is done annually.

## 34. Financial instruments and risk management

### 34.1 Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of its equity balance. The capital structure of the Company comprises issued share capital and retained earnings.

The capital structure and gearing ratio of the company at the reporting date was as follows:

	Note(s)	2023 ₦'000	2022 ₦'000
Borrowings	29	1,346,065	-

## Notes to the Financial Statements

---

### 34. Financial instruments and risk management (continued)

#### 34.3 Financial risk management

##### 34.3.1 Overview

The company is exposed to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk (currency risk, interest rate risk and price risk).

The Company has a Risk Management Committee which is responsible for developing and monitoring the Company's risk management policies which are established to identify and analyse the risks faced by the Company, to set appropriate risk limit and controls, and monitor risks and adherence to limits.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Risk Management Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee and Risk Management Committee.

##### 34.3.2 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and related parties.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting year represented below is the worst case scenario of credit risk exposure

##### Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry.

The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Credit sales limits are established for each customer and are reviewed regularly. The concentration of credit risk is limited due to the large and unrelated customer base. The company has pledged no trade receivables during the year.

The Company reviews amounts due in respect of other receivables on a periodic basis taking into consideration factors such as continued employment relationship. All employee advances are recovered through payroll deductions and there has been no history of default. Accordingly management considers employee advances as recoverable.

The Company writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings or when the trade receivables are over two years past due, whichever occurs earlier. None of the trade receivables that have been written off is subject to enforcement activities.

The Company's exposure to credit risk on its financial assets at the reporting date are concentrated in a geographical region; Southern Nigeria.

Loss rates are based on actual credit loss experience over the years. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

The increase in loss allowance is mainly attributable to the increase in the gross carrying amounts of trade receivables that are aged above 180 days. The methodology for the calculation of ECL is the same as described in the last annual financial statements.

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 34. Financial instruments and risk management (continued)

#### Cash and cash equivalents

The Company held cash and cash equivalents of ₦2.44 billion at 31 December 2023 (2022: ₦2.18 billion), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with commercial banks. The Company manages the risk associated with its cash and cash equivalents by selecting banks with strong financial position and history of good performance.

While cash and cash equivalents are also subject to the impairment requirements of IFRS 9, the identified impairment Nil in current year (2022; Nil) was immaterial. The assessment is based on various bank ratings

The maximum exposure to credit risk is presented in the table below:

	Note(s)	2023			2022		
		Gross carrying amount ₦'000	Credit loss allowance ₦'000	Amortised cost / fair value ₦'000	Gross carrying amount ₦'000	Credit loss allowance ₦'000	Amortised cost / fair value ₦'000
Trade and other receivables	19	438,703	(54,637)	384,066	107,464	(34,268)	73,196
Cash and cash equivalents	22	2,444,615	-	2,444,615	2,188,805	-	2,188,805
		<b>2,883,318</b>	<b>(54,637)</b>	<b>2,828,681</b>	<b>2,296,269</b>	<b>(34,268)</b>	<b>2,262,001</b>

#### 34.3.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for addressing its short-, medium- and long-term liquidity requirements and makes monthly cash flow projections which assists in monitoring cash flow requirements and optimizing cash return on investments.

To ensure that the company continually meets its current and future operating cash flow obligations, the board has approved long-term security facilities from the Bank of Industry.

The maturity profile of contractual cash flows of non-derivative financial liabilities and financial assets held to mitigate the risk, are presented in the following table. The cash flows are undiscounted contractual amounts.

#### 34.3.4 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices such as interest rate, exchange rates and other prices.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, whilst optimizing the return.

The Company manages market risks by keeping costs low through various cost optimization programmes. Moreover, market developments are monitored and discussed regularly and mitigating actions are taken where necessary.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 34. Financial instruments and risk management (continued)

#### 34.3.5 Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of financial instrument will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered in foreign currencies.

The company is exposed to foreign currency risk as a result of borrowings which are denominated in foreign currencies. Exchange rate exposures are managed within approved policy parameters utilising foreign forward exchange contracts where necessary. The foreign currencies in which the company deals primarily is US Dollars.

#### Exposure in foreign currency amounts

The net carrying amounts, in foreign currency of the above exposure was as follows:

##### US Dollar exposure:

	2023	2022
	\$	\$
<b>Current liabilities:</b>		
US Dollars - Borrowings	1,496,637	-
<b>Net US Dollar exposure</b>	<b>1,496,637</b>	<b>-</b>

#### Exchange rates

	2023	2022
	₦	₦
Naira per unit of foreign currency:		
US Dollar	899.93	-

#### Foreign currency sensitivity analysis

The following information presents the sensitivity of the company to an increase or decrease in the respective currencies it is exposed to. The sensitivity rate is the rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated amounts and adjusts their translation at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

	2023	2023	2022	2022
	₦'000	₦'000	₦'000	₦'000
	Increase	Decrease	Increase	Decrease
<b>Increase or decrease in rate</b>				
<b>Impact on profit or loss:</b>

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 34. Financial instruments and risk management (continued)

#### 34.3.6 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

#### Interest rate profile

The interest rate profile of interest bearing financial instruments at the end of the reporting period was as follows:

	Note(s)	2023 N'000	2022 N'000
<b>Fixed rate instruments:</b>			
<b>Liabilities</b>			
Borrowings	29	1,346,065	-

#### Interest rate sensitivity analysis

The Company does not account for any fixed or variable rate financial assets and liabilities, therefore a change in interest rates at the reporting date would not affect profit or loss.

	2023 N'000	2023 N'000	2022 N'000	2022 N'000
Increase or decrease in rate	Increase	Decrease	Increase	Decrease
<b>Impact on profit or loss:</b>				
Borrowings 5% (2022: 5%)	(8,480)	8,480	-	-

### 35. Fair value information

#### Fair value hierarchy

The table in note 34.2 analyses assets and liabilities carried at fair value. The different levels are defined as follows:

Level 1: Quoted unadjusted prices in active markets for identical assets or liabilities that the company can access at measurement date.

Level 2: Inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

### 36. Restatement of comparative information (continued)

#### Reason for the reclassification

The company reclassified and represented its cost of sales, selling & distribution expenses, and administrative expenses to align with the nature of the transactions in accordance with the requirements of the applicable International Financial Reporting Standards (IFRS). Consequently, the presentation of the comparative figures and the prior year's balances has been reclassified in accordance with IAS 1 (Presentation of Financial Statements) for meaningful comparison.

#### b. Restatement of deferred tax

In prior year 2021, no deferred tax on freehold was recognised, while in 2022 there was a deferred tax asset which invariably should be a deferred tax liability. This has fully been applied and prior year re-stated with adjustments.

#### Income tax expense

	31 December 2022		
	As previously reported N'000	Adjustment N'000	Amount as adjusted N'000
<b>Current tax expense:</b>			
Minimum tax	67,732	-	67,732

# Champion Breweries Plc

Annual Report and Financial Statements for the year ended 31 December 2023

## Notes to the Financial Statements

---

### 37. Segment reporting

Nigeria is the Company's primary geographical segment as the Company's revenue is entirely earned from sales of similar product in Nigeria. The Company has only one business operating segment namely- sale of goods.

Accordingly, no business or geographical segment information is reported.

### 38. Commitments

The Company has no commitments towards capital expenditure as at 31 December 2023 (2022: 1.3 billion).

### 39. Contingencies

The Company is a defendant in various lawsuits that have arisen in the normal course of business. The contingent liabilities in respect of pending litigation at year end amounted to N1.802 billion (2022:N1.034 billion). In the opinion of the Directors, none of the lawsuits will result in a liability, thus no provision was made for them in these financial statements.

### 40. Events after the reporting period

There are no other events which could have had a material effect on the financial position of the Company as at 31 December 2023 and its financial performance for the year then ended that have not been adequately provided for or disclosed in these financial statements.

However, EnjoyCorp Limited, a holding company established for food, beverages, and hospitality brands, has reached an agreement with Heineken B.V., to acquire 100% of its shareholding in the Raysun Nigeria Company Limited, which in turn holds an 86.5% stake in Champion Breweries Plc.

This event occurred after the reporting period and is disclosed for informational purposes to provide stakeholders with relevant information about subsequent significant transactions affecting the Company's interests.
